

Sample Paper – II LR

Directions (1 to 5): Study the following information and answer the given questions.

There are Eight People i.e., A, B, C, D, E, F, G and H attend an occasion on eight different days but not necessarily in the same order. D attends the occasion just before C. Two people attend the occasion between D and A. Three people attend the occasion between A and G. H attends the occasion just before G. B attends the occasion just after E but not at last. Only one person attends the occasion between E and F.

1. Who attends the occasion between B and A?

A. G B. A C. E D. F E. None of these

2. How many people attend the occasion between A and H?

A. One B. Three C. None D. Two E. Four

3. How many people attend the occasion after E?

A. Three B. One C. Two D. More than three E. None

4. Who attend the occasion before F?

A. Only C B. Only A C. Both E and D D. Both D and C E. None of these

5. How many people attend the occasion between G and the one who attends the occasion at first?

A. Four B. Three C. More than four D. None E. One

Solution:

Case 1

D > C >> A

Case 2

A >>> D > C

Three people attend the occasion between A and G.

Case 2 eliminated and we have 1 more case i.e., Case 1a

H attends the occasion just before G.

Case 1

H > G > D > C >> A

Case 1a

D > C >> A >>> H > G

Only one person attends the occasion between E and F. B attends the occasion just after E but not at last.

Now case 1 eliminated.

D > C > F > A > E > B > H > G
